

# Quomodo librum dimensione A6 codicibusque quattuor confaciam?

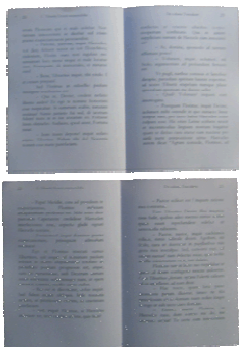

1 — Imprime paginas in folliorum unumquodque latus. Cave ut paginas recte se sequantur!

2 — Seca unumquodque follium  
in partes duas  
secundum lineam plenam (\_\_\_\_\_)

3 — Plica omnia folia  
secundum lineam discretam (-----)

4 — Collige folia sicut ostenditur in imagine.  
Cave: tres codices sunt.

5 — Vinci codices fibulis.

6 — Conglutina codices inter se ut sit liber completus.

7 — Seca paginas conglutinatas secundum lineam.

8 — Pone pelliculam glutinantem in dorsum libri.
